No. 38 (677) Weekly Wednesday, September 14, 1977 PYONGYANG, DEMOCRATIC PEOPLE'S REPUBLIC OF KOREA

LONG LIVE THE GREAT JUCHE IDEA!!

EDITORIAL

WARMLY HAIL INTERNATIONAL SEMINAR ON JUCHE IDEA

Today a historic International Seminar on the Juche Idea has opened in Pyongyang, drawing great interest and attention of all the Korean people and the progressive peoples and broad public circles of the world.

Participating in the Seminar are Party and government delegations of various countries of the world, delegates of study groups on the Juche idea, representatives of international bodies and foreign social organizations, parliamentarians and prominent public figures as well as men from scientific, educational, cultural and press circles.

The Korean people deem it a great honour to open the International Seminar on the Juche Idea in the capital of the Democratic People's Republic of Korea, the homeland of Juche, heartily welcome all the delegates present at the Seminar with a lofty desire to carry out the cause of independence against imperialism and with profound sentiments of friendship, and warmly hail the Seminar.

The Pyongyang International Seminar has been convened under the historical circumstances in which the peoples of many countries of the world call for the Juche idea and their aspirations to move forward under the banner of anti-imperialism and independence keep growing more than ever before.

The great leader Comrade Kim Il Sung has said:

"Ours is an era of independence, and it is a universal truth to maintain independence in the revolution and construction."

At the present times, the progressive peoples the world over hope to live with the Juche idea as their guiding compass and many nations demand independence.

No one wants to live shackled to others or intends to tolerate the dignity of his nation being trampled upon.

The great Juche idea which was born as a reflection of the trend and requirement of our epoch when the masses of the people have appeared as the master of their own destiny, molding history independently and creatively, represents an invincible banner steering the progress of the times and is gripping the hearts of the people with its tremendous attractive power, for it mirrors the common aspirations of the world's progressive peoples calling for independence.

An increasing number of peoples on the globe demand the Juche idea and advance with vigour along the path of independence and self-support in opposition to all forms of intervention and subordination. This constitutes the main trend of the world politics in our age.

Nowadays a wide range of groups for the study of the Juche idea have mushroomed in every nook and corner of the world and forums on this idea take place with lively topics not only in different countries but on a regional or international scale.

Previously, there were six international seminars on the Juche idea, among them the seminar in the Middle East area held in Lebanon and the seminar in Madagascar last year, and today the Pyongyang International Seminar has been arranged.

The International Seminar on the Juche Idea in Pyongyang that reflects the noble aspirations of the progressive peoples in our era will afford a valuable opportunity for the entire attendants, who pursue advanced ideas and fight for justice, truth and independence, to exchange the successes gained in their study of the Juche idea and the experiences accumulated in their struggle for independence, sovereignty and building of a new society.

The International Seminar will also mark an important turning-point in inspiring the struggle of the peoples for independence, sovereignty and building of a new society and demonstrating their invincible might and go a long way towards further deepening the understanding between the world's progressive peoples forging ahead under the banner of anti-imperialism and independence and towards strengthening their solidarity and cooperation.

The immortal Juche idea originated by the great leader Comrade Kim Il Sung is an immutable guiding ideology of the Workers' Party of Korea and the guiding principle of the Democratic People's Republic of Korea governing all its activities.

Based on a profound and unique philosophical theory—man is master of everything and decides everything—the imperishable Juche idea has become an immovable cornerstone of a new world outlook which helps to solve all matters with the greatest importance being attached to man and it expounds the guiding principle of the revolution calling for finding a decisive guarantee for successful promotion of the revolution and construction in the work with people, the work for training them to be powerful beings.

The Juche idea scientifically enunciates the position and role of man in the world, thereby providing one with the only correct outlook on nature and society and a powerful weapon to cognize and transform the world.

The Juche idea elucidates a revolutionary theory evolved with the popular masses as the central factor and a revolutionary strategy and tactics based on their role and indicates the most convincing methodology of the revolution for bringing about a successful solution of all problems arising in the revolution and construction.

The Juche idea serves as a revolutionary pabulum for healthy ideological life of our people and as the basis for their thought and action; it has been splendidly embodied in all spheres of revolution and construction, such as politics, economy, culture and military affairs, and is displaying its great vitality.

Indeed, under the radiant rays of the Juche idea our country has turned into a socialist power with its complete political sovereignty, solid independent national economy, brilliant national culture and strong national defence capacity and our people have become a mighty and dignified people of an ever-prosperous independent and sovereign state, a resourceful people who enjoy an independent and creative life to their hearts' content, firmly holding their destiny in their hands.

The immediate cardinal task for applying the Juche idea in the Korean revolution at present is to take back the territory and people from the foreign imperialists and establish national sovereignty throughout the country.

Following the trend of the present era when the forces of imperialism are falling into decay and ruin and the world is taking the road of independence, our people's struggle to achieve national reunification is enlisting the active support and encouragement of the progressive peoples of the world and the international solidarity for our revolution is growing stronger from day to day.

Our people are convinced that the current International Seminar will do much towards making a deeper study of the Juche idea and carrying it into practice and that the Seminar will pay close attention to the development of the ever-worsening situation in Korea and make a great contribution to stimulating and hastening the just cause of our people who are struggling against the "two Koreas" plot and new war provocation manoeuvres of the US imperialists and other splittists at home and abroad and for the independent and peaceful reunification of Korea.

The Seminar will also greatly be conducive to encouraging and accelerating the struggle of the peoples of the world who advance vigorously under the banner of independence against all forms of dominating forces.

Unity is a powerful weapon for defending independence.

As hitherto, so in the future, the Korean people, holding aloft the banner of anti-imperialism and independence, will do everything in their power to strengthen the solidarity and cooperation with all peoples of the world advocating independence and fight staunchly for the world-historic triumph of the common cause against imperialism and for independence.

It is our people's firm belief that the Pyongyang International Seminar will register signal results in keeping with the desire and expectation of the world's progressive peoples and actively help towards the onward movement of the peoples for independence.

Pyongyang Mass Meeting Held in Support of "Theses on Socialist Education" Enunciated by the Great Leader Comrade KIM IL SUNG

Having accepted the immortal classic work "Theses on Socialist Education" made public by the great leader of our Party and our people Comrade Kim Il Sung at the 14th Plenary Meeting of the 5th Central Committee of the Workers' Party of Korea, the whole country is now enveloped in an atmosphere of immense emotion and joy, seething with a heightened revolutionary enthusiasm.

On September 10 a Pyongyang mass meeting took place at Kim Il Sung Square with a large attendance in support of the "Theses on Socialist Education" enunciated by the great leader Comrade Kim Il Sung.

Put up with due respect in the centre of the meeting place was a portrait of Comrade Kim Il Sung, the great leader of our Party and our people.

Also seen were slogans reading "Long live the great leader Comrade Kim Il Sung!" and "Long live the Democratic People's Republic of Korea!" and streamers bearing the words "We reverentially wish the great leader Comrade Kim Il Sung good health and a long life".

That day working people, youth and students in the capital paraded through the streets and converged on the meeting place, warmly supporting the "Theses on Socialist Education", bound in infinite regards and gratitude to the respected and beloved leader, and loudly shouting the slogans expressing their fiery determination to take the lead in the implementation of the Theses.

Visible here and there at Kim Il Sung Square packed to capacity with 100,000 people were slogans reading "Long live the 'Theses on Socialist Education!'" "Warm support to the 'Theses on Socialist Education' personally authored and enunciated by the great leader Comrade Kim Il Sung!" "Let us all thoroughly implement the 'Theses on Socialist Education!'"

The platform was mounted by Comrade Pak Sung Chul, Comrade Kim Dong Gyu and other cadres of the Party and the government, leading members of committees and ministries of the Administration Council, national bodies and social organizations, responsible functionaries of Pyongyang municipal Party and government bodies, Heroes of the Republic, Labour Heroes and representatives of teaching staffs and students.

The mass meeting began with the singing in chorus of the "Song of General Kim Il Sung."

Several persons took the floor at the meeting.

The speakers referred to the fact that by publishing the immortal classic work "Theses on Socialist Education" the great leader provided the people with another everlasting ideological and theoretical asset and opened up a broad vista for educational revolution. So saying, they fervently supported and welcomed the Theses on education.

They noted that in the immortal work the great leader, on the basis of the philosophical theory of the Juche idea, gave perfect answers to the position of education and its mission in the struggle for transformation of the world and in the building of socialism and communism, the fundamental principles of socialist pedagogy, the fundamental principles to be firmly adhered to in the educational work and the content and methods of socialist education and gave a comprehensive and clear exposition of the revolutionary policies for consolidating and developing the advanced socialist education system of our country and steadily strengthening and developing the socialist education, the duties and role of the educational institutions and the tasks for intensifying the Party guidance, state support and social assistance to the educational work.

The speakers stressed: The "Theses on Socialist Education" is a great programme of Juche-based education which brightly illuminated the road to be followed by socialist education for the first time in history on the basis of the immortal Juche idea, a communist educational programme which blazed the trail for rapidly capturing the ideological and material fortresses of communism by revolutionizing, working-classizing and communizing people and bringing them up into men of a communist type equipped with good knowledge, high virtue and sound body and developed in an all-round way and an encyclopaedic textbook of revolution giving comprehensive, scientific answers to all theoretical and practical problems arising in socialist education.

The "Theses on Socialist Education" is a proud sum-total of the brilliant victories, successes, experiences and exploits in our socialist education under the wise guidance of the great leader Comrade Kim Il Sung and a precious fruition of the lofty virtue of the respected and beloved leader who has constantly shown every possible solicitude and care for the triumph of our revolutionary cause and for the heirs to the revolution, the speakers pointed out.

They said that with the publication of the "Theses on Socialist Education" our people became able to bring about a new turn in the education of the younger generation and in the training of native cadres and to strengthen our revolutionary forces and hasten the cause of Juche more vigorously by creditably carrying out the three revolutions, ideological, technical and cultural.

The radiant rays of the great Theses on education elaborated by the respected and beloved leader, the speakers emphasized, will greatly inspire the south Korean people, youth and students with hope, prowess and conviction in their fight against the reactionary educational policy of the US imperialists and the Pak Jung Hi puppet clique and for winning democratic freedom and the right to learning and achieving the independent reunification of the country and will give a powerful encouragement to their struggle.

They extended the greatest honour and gratitude to the respected and beloved leader Comrade Kim Il Sung, great thinker and theoretician and genius of revolution, who established the glorious tradition of revolutionary education already long ago, built up the most advanced system of socialist education in this land and has now again vigorously inspired our Party and our people to a new, great victory through the Juche-motivated educational programme he himself mapped out.

The speakers evinced their resolve to deeply study the educational Theses formulated by the great leader, firmly equip themselves with the original ideas and theories and revolutionary policies contained in the Theses and carry out the tasks specified in the Theses without the slightest deviation so as to effect a new change in all aspects of educational work.

A resolution was adopted at the meeting amid loud applause of the attendants.

The meeting closed with the chorus of "Long Life and Good Health to the Leader".

Similar mass rallies are taking place extensively in provinces, cities and county seats as well as in factories and enterprises, on cooperative farms and at schools.

Report on 14th Plenary Meeting of 5th Central Committee of Workers' Party of Korea

Discussions continued on "Theses on Socialist Education" made public by the great leader Comrade Kim Il Sung at the September 6 and 7 sessions of the 14th Plenary Meeting of the Fifth Central Committee of the Workers' Party of Korea.

At the Plenary Meeting Comrade Kim Il Sung, the great leader of our Party and our people, made an important speech which would serve as a programme in strengthening and developing socialist education and accelerating the building of socialism and communism.

Taking the floor at the Plenary Meeting were Comrades Kim Dong Gyu, So Chol, Chong Jun Gi, Li Gun Mo, Kim Hwan, Kang Song San, Hwang Jang Yop, Kim Il Dae and Kang Hui Won, and a number of other comrades of national and local bodies.

The great leader Comrade Kim Il Sung explained the purport of his presentation of "Theses on Socialist Education" to the Plenary Meeting and indicated the orientation and ways for the development of socialist education.

He said that it is, of course, important for the working class to successfully carry out socialist economic construction and raise the people's material standards after overthrowing the capitalist system and establishing the socialist system, but no less important is to enhance the ideological consciousness of the people and their cultural and technical levels.

The respected and beloved leader said that unless the ideological consciousness and cultural and technical levels of the working people are enhanced, they cannot play a proper role as the masters of society and, accordingly, socialist construction might mark time or move backward. He stressed that, therefore, the working class must conduct education suited to socialist society after it seizes power and establishes the socialist system.

Saying that the working class has to build socialism in capitalist encirclement for a long time after it seizes power, the great leader Comrade Kim Il Sung pointed out that, under this condition, capitalist reactionary ideas and decadent culture might infiltrate from outside and feudalistic ideas, capitalist ideas and all other brands of outdated ideas might assert themselves from within.

The respected and beloved leader Comrade Kim Il Sung said that if the party and state of the working class fail to conduct education suited to socialist society and adopt spotty education which can neither be called socialist nor be called capitalist, they cannot prevent capitalist ideological and cultural infiltration and the corrosive action of the survivals of the outdated ideas and stressed that only when we properly conduct socialist education in the period of transition from capitalism to communism can we working-classize, revolutionize and communize all the members of society.

The great leader Comrade Kim Il Sung said that strengthening socialist education stands out as an important task when the working class seizes power, whether in a developed capitalist country or in a backward colonial, semi-feudal country, and expounded that, though the transition period might be long or short depending on the level of the development of productive forces, education for remoulding man's ideological consciousness stands out as an important problem in all the countries.

The respected and beloved leader Comrade Kim Il Sung said that when the people wage a struggle to overthrow the exploiting system and free themselves from exploitation and oppression, their revolutionary enthusiasm is very high, but after they destroy the exploiting system and get rid of exploitation and oppression and lay a certain material and technical foundation, their revolutionary enthusiasm gradually gets cool. He said experience shows that when a socialist revolution is carried out and worries about food, clothing and housing are dispelled, the revolutionary enthusiasm of the people wanes.

He stressed that, therefore, the party and state of the working class, after establishing the socialist system, must strengthen the educational work to working-classize, revolutionize and communize all the members of society.

The respected and beloved leader Comrade Kim Il Sung said that 130 years have passed since Marx published "Communist Manifesto" in 1848 and 60 years since the October Socialist Revolution triumphed in Russia under Lenin's leadership and in this period great changes have taken place in the international communist movement and the liberation struggle of the oppressed people. And he said that after World War II in particular the chains of capital have been broken and the socialist revolution ended in victory in many countries and the oppressed peoples in a number of countries have been free from the imperialist colonial yoke to win national independence and are advancing toward socialism.

Recalling that Lenin put forward the theory that socialism can triumph in one country and Marx propounded in "Communist Manifesto" that the history of all societies which had so far existed had been a history of the class struggle and put forward the theory of continued revolution, the great leader Comrade Kim Il Sung stressed that the working class must carry on the revolution after it seizes power to build socialism and communism.

He said that the most complex and difficult task in building a socialist and communist society is to capture the ideological fortress of communism by educating and remoulding people and emphasized that it is very important to correctly solve the problem of rearing men of a communist type, the problem of socialist education.

Saying that today it is an irresistible trend of the times to take the road of socialism, the respected and beloved leader Comrade Kim Il Sung recalled that third world countries, a majority of the newly independent countries, now declare that they will take the road of socialism.

He said that the newly independent countries and many other countries, aspiring after socialism, are watching the socialist countries building socialism and stressed that, therefore, the socialist countries should build socialism better.

The great leader then indicated the orientation and ways of socialist education.

The great leader Comrade Kim Il Sung pointed out that the basic task of socialist education is to ideologically remould people and enhance their cultural and technical levels and expounded that it is one of the most important problems to be solved in socialist education to ideologically remould people, in other words, to eradicate the ideological survivals of feudalism and capitalism which remain in their minds and educate and rear them to be ardent communist revolutionaries.

The respected and beloved leader Comrade Kim Il Sung laid stress on strengthening class education and education in socialist patriotism and arming the people with revolutionary optimism.

He expounded that what is basic in ideological education is to make people remain faithful to the Party and said that infinite loyalty to the Party is the most basic trait of a Communist.

The great leader said that no matter how high cultural and technical knowledge one may have, it is useless, if he lacks fidelity to the Party and stressed that in socialist education primary attention should be paid to educating people to be unboundedly loyal to the Party.

He noted that another important problem in socialist education is to raise the cultural and technical levels of all people.

Stating that the struggle to build socialism and communism is a very difficult one for solving everything by one's own efforts in capitalist encirclement, the respected and beloved leader Comrade Kim Il Sung said that only when all the people possess a high degree of cultural and technical know-how can they dissipate illusion about capitalism, do away with flunkeyism and dogmatism and creatively carry on the revolutionary struggle and constructive work from the Juche-motivated stand in conformity with the specific conditions of their country. And he cited facts to prove this.

Then the great leader stressed that ideological education and cultural and technical education should be placed under a uniform control in socialist education.

Elucidating once again that two fortresses, in other words, the ideological fortress and the material fortress, must be captured for the building of socialism and communism, he said that to capture the two fortresses in socialist and communist construction, one should not emphasize only cultural and technical education, while neglecting ideological education, nor do vice versa and taught that to successfully build socialist and communist society we must vigorously push ahead with the work of ideologically remoulding all people and the work of raising their technical and cultural levels, keeping a tight hold on both.

Stressing that a keen attention should be directed especially to the education and training of the successors to revolution, the great leader said that whether we bring up the younger generation which will take over our revolution to be ardent revolutionaries and Communists, or not, is the basic problem deciding whether we carry our revolutionary cause to accomplishment or not.

Saying that the revolutionary struggle is an arduous struggle which takes a long time, the respected and beloved leader stated that the generation constantly changes, while the target of revolution remains the same.

He said that the cause of our revolution has not been realized and we have not yet reunified the country. Then he recalled that we are carrying on the revolutionary struggle and constructive work standing face to face with the US imperialists, the chieftain of imperialism, a half of our country is still under the occupation of the US imperialists and south Korea has been reduced to a den of all hues of reactionaries. Saying that as long as there remain the US imperialists and the reactionaries in south Korea, we cannot stop our struggle even a moment and we must reunify the country and carry the revolution through to completion, he stressed that only when the successors to the revolution are well educated and trained can we continue with the revolution, reunify the country and carry the cause of socialism and communism to accomplishment.

The respected and beloved leader then recalled that, foreseeing the protracted nature of the revolution already in the early period of the anti-Japanese revolutionary struggle, he had directed keen attention to the education of the younger generation to succeed the revolution.

The great leader stressed that Party leadership of socialist education should be strengthened to successfully conduct it.

The respected and beloved leader branded it as revisionism to negate the leading role of the Party in the revolution and construction.

He also pointed out that communism cannot be built without enhancing the leading role of the working-class party and increasing the function of the dictatorship of the proletariat of the socialist state.

The great leader recalled that Marx said the dictatorship of the proletariat is indispensable in the period of transition from capitalism to communism and Lenin defended and upheld the theory of Marx on the dictatorship of the proletariat and put forward the proposition that communism is Soviet power plus electrification.

Saying that we should have a correct understanding of the propositions of Marx and Lenin and defend and develop them, the respected and beloved leader expounded that Lenin, in his proposition, meant by Soviet power the dictatorship of the proletariat and by electrification meant the automation of all production processes through technical revolution, not merely the construction of a host of electric power stations.

The great leader went on to note that, for the building of socialism and communism, the leading role of the Party must be enhanced to strengthen the dictatorship of the proletariat and remould the ideological consciousness of the people and do away with the differences between heavy and light labour, between agricultural and industrial labour and between mental and physical labour by carrying out the technical revolution. By continuously strengthening the Party leadership of socialist education and further improving and strengthening it in the future, we should rear all the students into able communist builders well prepared mentally, morally and physically, he said.

He stressed that, by improving socialist education and educating and remoulding all the people on the communist pattern, we must guide everyone to endeavour with all devotion to consolidate and develop the socialist system in the northern half of our Republic, reunify the country and totally defeat imperialism and build a new society free from exploitation and oppression all over the world in unity with the world's revolutionary people.

And the great leader stressed that, by creating a prototype of the socialist educational system in the north, we should show the superiority of socialism to the south Korean people with a real object.

The speakers fully approved and supported "Theses on Socialist Education" authored by the respected and beloved leader Comrade Kim Il Sung, stressing in unison that it is a Juche-based revolutionary educational programme brilliantly embodying the immortal Juche idea, the great revolutionary idea of our times.

They emphasized that the Theses is a scientific and theoretical summing up and consummation of the rich practical experiences and precious achievements attained by the respected and beloved leader Comrade Kim Il Sung in the course of wisely guiding the educational work for the long period of half a century since he founded the idea, theory and method of the education for the revolutionary cause of the working class and communist construction, the Juche-based education, and it is a mighty ideological and theoretical weapon on which the party and state of the working class must keep a tight hold in educational work in the whole historical period of the building of socialism and communism.

They unanimously stressed that the Theses is a flawless, original and encyclopedic, great educational programme with immortal truth and vitality as it gives a comprehensive, profound and overall systematization of all the problems arising in the remoulding of man, in his education, such as the position of education in the building of socialism and communism, the mission and goal of socialist education, the fundamental principle of socialist education and the principles for bringing it into materialisation, the content and method of education and the educational system and guidance in educational work in socialist society.

The speakers stressed that the publication of "Theses on Socialist Education" by the great leader was, therefore, an event of epochal significance not only in the development of the revolutionary theory on education but also in the development of the revolutionary ideas and in the realization of the revolutionary cause of the working class.

The Theses is a programme which brightly indicates the road of successfully solving the problem of remoulding man, one of the fundamental problems arising in the building of socialism and communism, and the problem of rearing revolutionary cadres of a communist type with consciousness of independence and creative ability, they emphasized.

Saying that in the Theses the great leader gave a profound philosophical exposition to all the problems from the intrinsic character of man as a social being to the law that governs his remoulding and its method, the speakers pointed out that the Theses is not only an immortal work of socialist pedagogy but a great work making an undying historic contribution to arming people with the world outlook of Juche, a true communist world outlook.

Pointing to the original exposition by the respected and beloved leader in the Theses of the content and methods of education, the essential characteristics and superiority of the educational system of our country and the problem of guidance in education, the speakers laid stress on its correctness and enormous significance.

With the publication of "Theses on Socialist Education" by the great leader Comrade Kim Il Sung a bright vista has been opened for rearing revolutionary cadres of a communist type and along this road we will successfully scale the two fortresses of communist construction, giving priority to remoulding of man, and energetically carry the revolutionary cause to its final accomplishment.

The Theses put forward by the great leader will powerfully encourage not only the people in the northern half of our Republic but also the south Korean people and children and students who are fighting for national sovereignty, human dignity, the freedom of learning and the independent and peaceful reunification of the country under the colonial rule of US imperialism and the fascist repression by the south Korean puppets and give them conviction of a bright future, said the speakers.

The speakers spoke of the glory and happiness of our Party and our people who will confidently advance under the ever-victorious banner of "Theses on Socialist Education," a great educational programme and an invincible weapon for the development of socialist education and socialist and communist construction, which has been bestowed upon them, and stressed in unison that this is a shining fruition of the profound and unique ideological and theoretical activities of the respected and beloved leader Comrade Kim Il Sung, the wise leadership into which he has put his heart and soul for a long time for the victory of the revolution and his noble aim of rearing our people to be an independent and creative mighty social being.

The speakers stressed in unison that the Theses in which the great leader Comrade Kim Il Sung theoretically generalized the precious achievements and rich experiences he had gained in the educational field in the long period of his leadership of our revolution, gives a profound ideological and theoretical consummation of the abundant fruits and priceless experiences attained by the great leader in his tireless efforts for the building of revolutionary education for half a century and is run through with his noblest virtues in putting his heart and soul into providing our people and the younger generation with an independent and creative life and rearing them to be versatilely developed communist revolutionaries.

Stressing that a right road of capturing the ideological fortress of socialism and communism lies in thoroughly defending and implementing the Theses authored by the great leader and there lies a firm guarantee for bringing educational work to a higher plane to suit the demand of the developing realities, the speakers evinced their unshakable determination to thoroughly fulfil the tasks advanced in it without the slightest deviation.

At the Plenary Meeting Comrade Kim Il Sung, the great leader of our Party and our people, made an important concluding speech which would serve as the guideline in the struggle to successfully implement "Theses on Socialist Education" and accelerate our revolutionary cause.

The Plenary Meeting pointed out that for the successful fulfilment of the tasks put forward in the Theses, it is important for the whole Party, all people and whole army, first of all, to have a deep-going study of the Theses and make it their flesh and blood.

Pointing out that elucidated in the Theses is not only the problem of the education of the younger generation, but also the problem of education and training of the people through their whole life covering preschool education, school education and adult education after schooling, the Plenary Meeting analyzed the specific features and tasks of each period.

The Plenary Meeting stressed that the younger generation should be energetically educated in the period of preschool education and school education to establish their revolutionary world outlook and it is important here to enhance the sense of responsibility of educational workers.

The Plenary Meeting directed deep attention to the position of adult education and the problem of improving and strengthening it put forward in the Theses.

It stressed then that an important problem arising in successfully implementing the Theses is that the quality of education is raised both in common education and higher education.

Underscoring the need to strengthen the material guarantee to the educational organs for successfully implementing the Theses, the Plenary Meeting laid it down that the state should undertake the material guarantee to the central institutions of higher learning and the provinces that to the local ones.

It paid deep attention to the new question of enforcing compulsory higher education raised in the Theses.

Saying that as communist society is one in which all the people should work well, everyone should have a high level of technique and culture, the Plenary Meeting pointed out that intellectualization of all people along with the working-classization of whole society is an indispensable requisite to communist construction and communist society cannot be built without the intellectualization of all people.

Noting that compulsory higher education is not a thing of distant future, the Plenary Meeting said that it is important at the present juncture to improve and strengthen the work of the factory colleges and higher specialized schools as the study-while-working educational system whose superiority has already been demonstrated through practice, while consolidating the successes of the universal 11-year compulsory education.

The Plenary Meeting noted with pride that the most advanced socialist educational system has been established in this land thanks to the wise leadership of the great leader Comrade Kim Il Sung and stressed that successes gained in free education and universal 11-year compulsory education should be further consolidated and developed.

The Plenary Meeting pointed out that the role of the Party organizations at all levels and educational institutions should be further enhanced to successfully implement the Theses.

The Plenary Meeting confidently pointed out that, if the whole Party and whole country were mobilized in the struggle, the Theses could be successfully carried out.

The Plenary Meeting adopted with the warm approval and support of the entire attendants "Theses on Socialist Education" as a highly important document to serve as the guiding compass of our Party in socialist education and in socialist construction.

The Plenary Meeting also decided to see to it that September 5 is instituted as Day of Education to mark the historic day when Comrade Kim Il Sung, the great leader of our Party and our people, published "Theses on Socialist Education" and convey to the generations to come his imperishable exploits.

The Plenary Meeting will be recorded as a historic occasion in bringing about a new turn in socialist education and socialist construction as a whole in our country.

The 14th Plenary Meeting of the Fifth Central Committee of the Workers' Party of Korea closed on September 7 upon the successful conclusion of its work.

14th Plenary Meeting, 5th CC, WPK, Adopts Decision on "Theses on Socialist Education"

The 14th Plenary Meeting of the Fifth Central Committee of the Workers' Party of Korea held in Pyongyang from September 5 to 7 adopted a decision on the great "Theses on Socialist Education" authored by Comrade Kim Il Sung, the great leader of our Party and our people, which brightly illumines the road of building socialist and communist education.

Noting that the Theses is a Juche-oriented educational programme in which is embodied the great Juche idea of the respected and beloved leader Comrade Kim Il Sung, the decision says: The Theses clearly points to the road of training the masses of the working people to be independent and creative social beings on the basis of the profound theory of the Juche idea that man is master of everything and decides everything and of solving with originality all problems arising in socialist education in keeping with the fundamental demands of revolution and the specific conditions of one's country.

"Theses on Socialist Education" is a great communist educational programme indicating the right way of training communist revolutionary cadres.

The Theses clearly points to the road of quickly capturing both the ideological and material fortresses on the way to communism by revolutionizing, working-classizing and communizing people and rearing them as versatilely developed men of a communist type prepared mentally, morally and physically.

The Theses is, indeed, a great encyclopedia of socialist education and a great communist educational programme comprehensively showing the orientation and ways of solving the problem of education in the period of socialist and communist construction.

The Theses is a guiding principle which the party and the state of the working class should hold fast to in capturing the ideological fortress on the way to communism by educating and remoulding people in a revolutionary way and energetically pushing ahead with the overall revolutionary struggle and constructive work throughout the period of socialist and communist construction.

The Theses in which the Juche-oriented educational theory of the great leader Comrade Kim Il Sung is fully embodied is shining brilliantly as a great monumental work in our times most profound, scientific, unique and richest in its contents.

The Theses is a precious fruit of the wise leadership of the great leader Comrade Kim Il Sung who set forth education as a fundamental problem decisive of the victory of revolution and construction and the future of the nation and has brilliantly solved it in the long half a century and a great result of his noble communist virtues, the decision stresses.

"Theses on Socialist Education", an overall embodiment of the Juche-based educational idea of the respected and beloved leader Comrade Kim Il Sung, his revolutionary theory of education, his immortal exploits and noble communist virtues, bears great importance in training communist revolutionary cadres and in carrying out the revolutionary cause of the working class as a whole, the decision points out, and goes on:

"Theses on Socialist Education" authored by the respected and beloved leader Comrade Kim Il Sung, constitutes a comprehensive systematization of the theory of communist education and its total exposition.

Thanks to the great theses on education authored by the respected and beloved leader Comrade Kim Il Sung, we came to have a perfect guiding theory of socialist education and develop socialist education on the right track to train men of a communist type in conformity with its revolutionary nature and mission.

By presenting a perfect communist programme of education the great leader Comrade Kim Il Sung has further enriched the treasure-house of the Juche idea and made another immortal, historical contribution to the development of the revolutionary ideas of the working class.

Having a perfect communist programme of education, our Party and people will bring about a new turn in educating the younger generation and training our own cadres and successfully carry out the three revolutions so as to make our revolutionary forces stronger and promote more vigorously the cause of Juche, the cause of socialism and communism.

The decision notes that the Theses will also greatly encourage the righteous struggle of the south Korean people for national salvation.

Fully approving and supporting "Theses on Socialist Education" authored by the respected and beloved leader Comrade Kim Il Sung, the Plenary Meeting hereby adopts it as a highly important document of our Party for building socialist and communist education, says the decision.

"Marshal KIM IL SUNG Has Not Only Performed Imperishable Exploits for the Korean Revolution But Also Made Great Contribution to the World Revolution"

World's People Lavish Praise On the Great Leader

The great leader Comrade Kim Il Sung brightly illumined the road to be followed by mankind by originating the immortal Juche idea, and accomplished undying exploits for the Korean revolution and the world revolution by making miraculous achievements in the revolution and construction through his outstanding and seasoned leadership.

That is why the world's people highly speak of the great leader, expressing an unbounded respect for him.

Genius of Mankind, Preeminent Thinker and Theoretician

"President Kim Il Sung is the genius of mankind, a preeminent thinker and theoretician, the great revolutionary leader and the founder of Kimilsungism which deeply reflects the interests of the working class.

The world's people who are making revolution and fighting for socialist construction regard Kimilsungism which gives a strong impetus to the forward movement of mankind as their banner.

Kimilsungism is an ideological and theoretical weapon which is most profound, scientific and revolutionary in human history.

Kimilsungism, a scientific doctrine with great vitality and might and encyclopaedia containing rich and universal truth, is greatly conducive to the development of human thought" (Peruvian Doctor of Laws Anhel Castro Rabarello).

"With deep understanding of the scientific and universal significance of the revolutionary idea, the integral system of ideology, theory and method of Juche whose truth and justice were clearly proved in the course of the leadership of revolution and construction by respected Comrade President Kim Il Sung under the most arduous and complex conditions over a period of half a century, we consider that it is only natural to call this original idea in combination with the august name of Comrade President Kim Il Sung" (From the declaration of the "International Scientific Seminar on the Juche Idea" held in Antananarivo).

"The Juche idea is an idea, theory and method giving food for deep thought to the exploited peoples of the world and providing a prescription to solve the contradictions left to us by the ruling forces" (Didier Ratsiraka, President of Madagascar).

"The Juche idea, the Juche philosophy fathered by President Kim Il Sung is a lighthouse of history illumining the road to a new, beautiful world for mankind and an invincible weapon to be held fast by the masses of the people in building a new world, a new state and a new society" (Thomas Megnassan, public figure of Benin).

Great Revolutionary Leader, Celebrated Hero

"It is the greatest pride of the Korean people to hold the great revolutionary leader Comrade Kim Il Sung in high esteem.

Korea is a model of the world in all fields—politics, economy, culture, etc.—because she is under the guidance of the great revolutionary leader Comrade Kim Il Sung.

Comrade Kim Il Sung is a great man, indeed. The great leader Comrade Kim Il Sung is a distinguished man in political and theoretical domains and in guidance and a patriot who devotes his all to the prosperity and development of the country" (Mohamed Siad Barre, Somalian President).

"President Kim Il Sung is a benefactor who liberated the Korean people from the shackles of the colonial rule of Japanese imperialism, the great revolutionary leader who has built a powerful socialist state, independent, self-supporting and self-defensive, in the land of Korea where centuries-old backwardness and penury prevailed, the ever-victorious iron-willed brilliant commander who defeated the US imperialists for the first time in history and affectionate father who has provided the Korean people with the most free and the happiest life.

Chollima Korea, a socialist industrial state standing imposingly in the East is, indeed, an imperishable monument that President Kim Il Sung, the great leader of the Korean people, set up for the eternal prosperity of the country and for the happiness of the people" (British paper "The Times").

"President Kim Il Sung is a hero produced by the new era. He is the greatest leader with the revolutionary sweep of the new era now dawning upon the world. President Kim Il Sung shines bright as the most outstanding hero among all heroes of Asia, Africa, Latin America and Europe" (An Australian journalist).

Affectionate Father of People

"People boundlessly respect and revere the respected and beloved leader President Kim Il Sung, great paragon of people's leaders, calling him 'affectionate father of the people'.

The great leader who was born into a poor peasant family in Mangyongdae and keenly experienced the sufferings and misfortunes of the oppressed and humiliated people is always among the masses of the people and shares life and death with them" (Syrian paper "Al Sakhafadul Usubualye").

"Marshal Kim Il Sung is an outstanding great leader. He is very simple and has a great influence.

When sitting face to face with him with a genial smile and bright eyes, people do not show constraint but feel friendly towards him. They learn from him a lot of things.

The deepest impression I have received from him is his sagaciousness and iron will.

It is quite natural that the entire Korean people should boundlessly respect and revere him.

Because he is the father of contemporary Korea.

The leader of the Korean people with an immeasurable greatness continues with his cause which will strike the Korean people and their friends with admiration" (Moussa Traore, President of the Government and Head of State of Mali).

"Over the long period of the revolutionary struggle, the great leader President Kim Il Sung has bent his all energies to the work for the freedom and happiness of the people, forgetting even rest and sleep.

The fatherly leader always goes into the midst of the people and unreservedly consults with them about state affairs and looks after their life with paternal care. No part of Korea is outside the reach of the warm fatherly solicitude of the great leader and all people are indebted to him.

Indeed, the great leader is the affectionate father of the people and the great sun of the nation" (Kuwait paper "Al Qabas").

Ever-victorious, Iron-willed Brilliant Commander

"The great leader Comrade Kim Il Sung is the ever-victorious legendary commander and hero for all ages who knocked down two strong and formidable imperialisms, Japanese imperialism and US imperialism, relying on the internal force of the nation for the first time in history" (Jordanian paper "Al Lai").

"Comrade Kim Il Sung, the great revolutionary leader and iron-willed brilliant commander, personally organized the anti-Japanese armed struggle in the darkest period of national sufferings, defeated the outrageous burglars Japanese imperialists by applying superb strategy and tactics which are not to be found in any book on military science through all ages and restored the fatherland, thus inscribing an eternal legend into the hearts of the Korean people.

The leader's ingenious strategy and Juche-based tactics are superb and multi-varied original ones hardly thinkable apart from 'an occult power ruling even gods', the power to be found in legend" (Colombian paper "El Sol").

"Under the leadership of the great leader Comrade Kim Il Sung, the Korean People's Army and the Korean people shattered to smithereens the myth of 'mightiness' of the US imperialists for the first time in the world. By so doing, they brought about the beginning of a downhill turn for the US imperialists" (A Puerto Rican high-ranking official).

"I think Comrade Kim Il Sung is one of the most prominent strategists in the world today. In particular, I regard his strategy that small countries must unite to defeat US imperialism as a very correct line in the anti-imperialist strategies of the world's people at present" (Pahumichifuri Kalam, member of an Egyptian public information delegation).

Helmsman of World Revolution

"President Kim Il Sung, founder of the great Juche idea, is not only the leader of Korea but also a peerless hero of the world's people who are looking forward to the bright future when people will become masters of everything.

Korean people, you should not regard President Kim Il Sung only as the leader of the Korean people. He is the sun of all of us" (Onuma Hisao, a postgraduate of Hosei University, Japan).

"Marshal Kim Il Sung has not only performed imperishable exploits for the Korean revolution but also made great contribution to the world revolution.

The leader gave correct answers to the theoretical and practical problems arising in the socialist and communist construction and has led the peoples of the underdeveloped countries of the world to take the right course.

The image of Marshal Kim Il Sung is carefully kept in the minds of the people of all countries of the world across the border. He earns great respect and veneration from the world's people" (Jose Francisco Aguilar, Chairman of the Costa Rica Socialist Party, Chairman of the Costa Rica Journalists Union and Chairman of the Costa Rica-Korea Association of Friendship and Culture).

"Only by modelling after President Kim Il Sung, is it possible to carry on government in the interests of the people. Indeed, the President is a bright beacon illumining the road ahead of the revolution through darkness and the sun of revolution that shines bright not only on half of the globe but on the whole world" (Linden Forbes Burnham, Guyanese Prime Minister).

"Comrade Kim Il Sung ranks first among the leaders who are valued by the working class of the world.

He will stand not only as the great and affectionate leader of the workers and peasants of Korea but also as the great leader and helmsman of all the working class and peasants of Asia, Africa and Latin America" (Alfred Troynou, an engineer of a Latin American joint-stock corporation in Tanzania).

WARM WELCOME TO DELEGATES TO ISJI!

Seen at the airport greeting the guests were the emblem symbolizing the International Seminar on the Juche Idea, and the slogans reading: "Long Live the Great Juche Idea!" and "Warm Welcome to the Delegates to the International Seminar on the Juche Idea!".

A large number of working people in Pyongyang came out to the airport with bundles of bouquets in their hands.

Our leading personnel and personages concerned greeted the guests at the airport.

Lovely children presented to the guests bunches of flowers replete with friendly feelings.

DRM Government Delegation Here

A government delegation of the Democratic Republic of Madagascar arrived in Pyongyang by air on September 10 to attend the International Seminar on the Juche Idea scheduled to be held in Pyongyang and pay an official visit to our country.

The delegation is composed of Remi Christian Richard, Member of the Political Bureau of the CC of the Revolutionary Vanguard of Madagascar and Foreign Minister of the Democratic Republic of Madagascar, its head; and wife of the Foreign Minister and other members.

The national flag of our Republic was waving over the airport greeting the guests, and seen at the airport compound were the emblem symbolizing the International Seminar on the Juche Idea and slogans reading "Long Live the Great Juche Idea!" and "Warm Welcome to the Delegates to the International Seminar on the Juche Idea!"

The delegation was met at the airport by Comrade Ho Dam, Vice-Premier of the Administration Council and Minister of Foreign Affairs, and his wife and functionaries concerned.

Present there to meet the delegation were DRM Ambassador to the DPRK Rakotofiringa Crescent Solohery and his wife and staff members of the DRM Embassy here.

Lovely children presented bouquets to the guests.
